There's a lot for your customers to like about new BABY-LOC® DELUXE Removable Fencing, such as its elegant new designer look and extra-sturdy construction. There's a lot for you to like, too, because **installation takes a fraction of the time of other removable fencing!** It's even easier for customers who already have safety covers – because, using anchor-in-pipe installation, you can utilize the same pre-drilled holes. (For LOOP-LOC owners, you can even use the same anchor shells!)
